"If you want to be not only successful, but personally, happily and preference. permanently successful, then do your job in a way that puts light in people's faces," Dr. Kenneth McFarland recently told a group of sales representatives.

That's Secret of Success

The words Dr. McFarland used in talking to a group of businessmen are just as applicable to the woman who wants to make a happy home for her husband and children.

It isn't enough for a homemaker to do her job efficiently. If she wants to provide a happy home life for her family she has to do her job in such a way that "she puts a light in the faces" of those she is work- girl he had arrested for illegal park-

The mother who "does everything for her children" and never lets place. them forget it for a minute doesn't put a happy light in their faces. She is too intent on trying to make her children feel grateful to make them feel happy.

The housekeeper who excels at her job can, at the same time, make her family miserable instead of comfortable if she is more concerned about her house than the family who lives in it.

NOT WHAT YOU DO, BUT HOW YOU DO IT

The wife whose talk is mostly of problems, who has never learned Yuletide tree. He's getting trimmed Sift the first six ingredients in gredients. Garnish with grated unto have the light touch, who rarely sees the funny side of a predicament, right now. and who thinks nagging is the only way to get things done may work hard at her job but she doesn't stand much chance of making her husband happy.

It takes love and laughter and respect for the feelings of others home work to do. and real joy in living for a housewife to do her job in such a way that it puts a light in the face of her family.

The key to contributing to the happiness of others isn't in how much knows how to have more good times to a well-greased, lightly floured, or margarine, grated fresh apple Miracle is the pet child of faith. we do for them but in the spirit in which we do what we are able to do. than a wealth man.

Power? You bet! The fabulous Thunderbird Y-8

Thunderbird Y-8 engine can be yours at no extra cost, for it is the standard eight in all Ford Fairlane and Station Wagon models. Beauty? Of course!

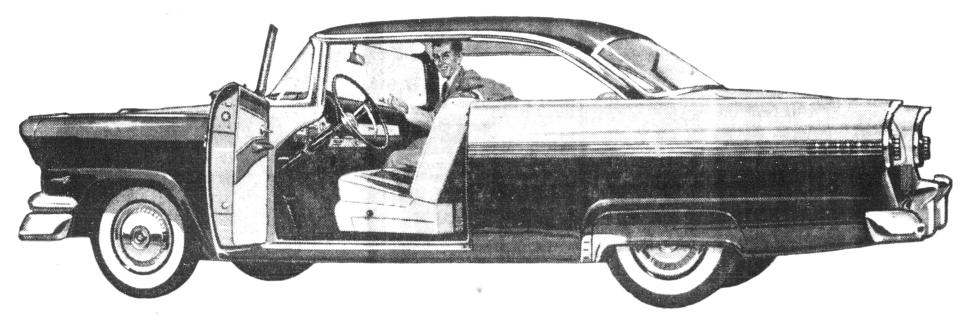

Ford goes like the Thunderbird! This exciting new "Go"-power

will let you smile at hills, have new confidence in passing. The

Inspired by the Thunderbird

The new '56 Ford and the fabulous Ford Thunderbird are really look-alikes! You can see the resemblance in every long, low line ... every graceful contour. And you can expect to be envied no matter where you may drive in your new '56 Ford.

Safety? Only FORD gives you LIFEGUARD DESIGN

Even more important than Ford's Thunderbird looks and go is Ford's exclusive new Lifeguard Design. It gives you extra protection from serious injuries in accidents. To cushion you from the steering post, Ford has a deepcenter Lifeguard steering wheel. To reduce the possibility of doors springing open under impact, Ford has Lifeguard

double-grip door latches. To help lessen injuries from impact, Ford offers optional seat belts and Lifeguard cushioning for control panel and sun visors. A new doubleswivel Lifeguard rear view mirror is designed to "give" under impact. But, come in! See how safe, how beautiful, how powerful a car in Ford's field can be.

You'll be safer in a

WASHINGTON SCHOOL ISLAND FIESTA

THURSDAY, NOV. 10th THIS SPACE COURTESY

Larson's CLEANERS

150556

New Sweep-ahead styling New Sizzle to match

WHAT YOU SEE pictured here is Buick for 1956—and it nods to no equal for looks and action.

You can judge the first part as your eyes rove from the wind-splitting "V" of that gleaming grille to the sassy slant of that rear-fender

And you see it in every clean-sculptured line -in the rich new fabrics-in the smart color harmonies - in the jewel-like fittings - in every detail of décor.

But what you see from the curb is more than matched by what you feel at the wheel-and you can take that as gospel.

For this Buick gets its zoom from a big 322cubic-inch V8 engine lofted to a new record high in power and compression-and from a spectacular new advance in Variable Pitch Dynaflow.*

Great New Getaway With Better Gas Mileage

What's new in the '56 Dynaflow is this: in the first inch of the pedal's travel - and not with wide-open throttle-your Buick gets going from a standing start like a lark leaving the nest, with not a hint of hesitation between take-hold and take-off.

It's acceleration that's silk-smooth, instant and certain. And you get it-along with a bountiful boost in gas-saving mileage-right in the normal driving range, where your gas pedal spends most of its time.

But comes an emergency-a sudden need for safety-surge action to get out of a tight spotand you floor the pedal to switch the pitch of this airplane-inspired Dynaflow. Instantly and smoothly, you're at full-power acceleration-a thrill beyond words.

There's a lot more we could tell you about these great new Buicks for 1956.

About a brilliantly styled new instrument panel. About a superb new ride with deep-oil cushioning. About a wholly new front-end geometry that adds a serene "sense of direction" and a new ease of handling to every Buick's every inch of travel.

About greater new safety, too-from smoother, surer, Safety-Line brakes - from new Safety-Aim headlamps-from new interlocking safety. latches-from a new Safety Power Steering +from the added protection, at your option, of seat belts and a soft padded cover on the instrument panel. Plus, of course, the extra safety of panoramic windshield visibility, of tubeless tires, of Safety-Ride rims, of torque-tube But the best way to get the whole story of the

best Buick yet is right at the wheel of one of these '56 beauties. Drop in on us this week and let the thrills fall where they may. *New Advanced Variable Pitch Dynaflow is the only

Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century-optional at modest extra cost on the Special.

†Standard on Roadmaster and Super, optional at extra cost on other Series.

"Satisfaction guaranteed or your money back" SEAR

Judging from a recent nation-wide survey, 76% of the people in this country don't understand how the New York Stock Exchange works. This advertisement is being published to explain the Exchange and how it serves America. We hope you'll find it informative and worthwhile.

What goes on at the Stock **Exchange?**

1. It all began 'way back when Washington was President. The government had sold bonds to pay for the Revolution. Infant companies had issued securities in which there was scattered trading. But there was no established market place where buyers and sellers could get together. So in 1792, a group of businessmen established the New York Stock Exchange, where the public's orders to buy or sell stocks and bonds could be handled.

2. It's still a market place . . . but it now serves more investors than there were people in the whole country in 1792. And, by providing a market place for securities over the years, the Exchange has helped make it possible for business to raise the capital it needed to build our great industries.

3. The Exchange doesn't own stocks which are bought and sold on its floor - never has. What it does do is bring together buyers and sellers of securities through its Member Firms. Orders are handled on the floor of the Exchange by "floor" members representing the Member Firms. It's the responsibility of the floor member to get the lowest available price for a buyer of stock and the highest price for a seller.

4. If you want to own your share of American business, the man to see is a partner or a registered representative with a Member Firm in your community. He can give you information about the 1,522 common and preferred stocks and the 739 corporate bonds listed on the Exchange. Cost for his help and advice: not one penny.

Before you invest, get the facts. Investing is a serious business. There always is some risk. So before you put your money into securities, be sure you have adequate savings to cushion you and your family against emergencies.

OWN YOUR SHARE OF AMERICAN BUSINESS

By Lee Wells

THE STORY: Jack Bruhn's | blankets and strolled to the door, THE STORY: Jack Bruhn's outlaw pack holes up in Bitter, Wyo, isolated by impassable roads during a thaw. One townsman has been killed, several manhandled and the outlaws have seized all the guns and ammunition, including the stock at the store. Dan Murdock fears for the safety of Paula Preston, daughter of the operator of the lumber yard. He is in love with her, as is Dan's boss, Blaise Starrett, owner of the Starranch, Blaise has been trying to ranch. Blaise has been trying to crowd Hai Crane of the HC ranch out of the valley and now Blaise suggests that there may be "another way" than a range war, now that the outlaws are in town.

XIII

window of the stage station and times. looked at the town. He could see the general store, the livery if Tex called a showdown? Jack stable and a small and neat didn't know. house on one of the three roads that joined the main highway just beyond the station.

GRAINS REGISTER LARGE LOSSES DUE TO SHORT DEMAND

By WILLIAM FERRIS CHICAGO (P)-All grains ran up fairly large losses on the Board of Trade Tuesday, largely because of a lack of demand rather than urgent selling.

Soybeans suffered declines running to four cents, the most of any cereal. But one and two-cent losses were common. The market started out lower and continued downward to the close, never displaying a good rally.

Wheat closed 15/8-23/8 lower, corn 13/4-23/8 lower, oats 3/4-11/8 lower, rye $2\frac{1}{4}$ - $3\frac{1}{2}$ lower, soybeans $2\frac{7}{8}$ to 4 cents lower and lard 13 to 28

cents a hundred pounds lower. A break by cash soybean meal into new low ground for the year prompted some of the selling in beans. Meal sold at \$48.50 a ton, * down 50 cents to \$1.00. A month

ago it was bringing \$60.00 a ton. Even cash soybean oil, which has been holding up quite well during the current weakness in meal was under pressure Tuesday. Its price of 10% cents a pound was off 1/4 to 3/8 cent.

An additional unsettling factor in soybeans was the government cotton crop report, estimating production at 14,843,000 bales. A month ago the government had estimated a 13,928,000 bale crop.

This meant more cottonseed oil and cottonseed meal to compete 10:30-News & Comment-no with soybean oil and soybean meal. In one sense, it was equivalent to a boost in soybean pro- 11:30—Dance Orchestra—abc duction, grainmen said.

There was very little doing in wheat. Yugoslavia asked for offers on red wheat, the start of the big buying scheduled for that country. But otherwise the export market was dull

AUCTION SALE EVERY THURSDAY

We are having extra good sales. For this week we will have 14 head of good home raised Angus calves from the Smith Farm—20 head of good Hereford calves, heifers and steers from the Rube Isenhouer farm. Will have other good cattle, cows and calves, calves, bulls, etc. Will have at least 200 head of good stock hogs from light to heavy weights—boars of all kinds, and usual run of other livestock. 500 pressure treated line posts, split and round. It's time for hay—we can use some. We appreciate any consignment. Strictly a good consignment sale where the farmer sells and buys. We own nothing that goes through the barn. Come, spend the day with us. Lunch served.
